Rishabh Mishra

Data Analyst • SQL • Power BI • Excel • Python • Business Intelligence

rishabhkum34@gmail.com | +91 95543 19541 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in data analytics, with hands-on experience building end-to-end pipelines: from raw data in SQL and Python to interactive Power BI dashboards. Skilled in EDA, KPI design, customer segmentation and reporting automation. Looking for a Data Analyst role where I can turn messy data into decisions that move business metrics.

TECHNICAL SKILLS

Languages & DB	SQL (MySQL, PostgreSQL), Python
SQL Concepts	Joins, CTEs, Window Functions, Subqueries, Indexing, Query Optimization
Python	Pandas, NumPy, Matplotlib, Seaborn, SciPy
Power BI	Power Query, DAX, Star-Schema Data Modeling, Row-Level Security, Drill-through Reports
Excel	Pivot Tables, XLOOKUP, INDEX-MATCH, Power Query, Dashboards, Data Validation
Analytics	EDA, Data Cleaning, KPI Analysis, RFM Segmentation, Cohort Analysis, A/B Testing Basics
Tools	Jupyter, Git, GitHub, VS Code

PROJECTS

End-to-End E-Commerce Analytics Platform (Flagship) *GitHub Repo*

Tech Stack: PostgreSQL, Python (Pandas), Power BI, DAX, Git

- Built a complete analytics pipeline on the public Olist Brazilian E-Commerce dataset (99K+ orders across 9 relational tables): ingestion, cleaning, modeling and dashboarding.
- Designed a **star-schema** data warehouse in PostgreSQL (fact and dimension tables) and wrote optimized SQL using CTEs and window functions for revenue, AOV, and delivery-performance KPIs.
- Created a Python ETL notebook (Pandas) to handle nulls, duplicates, date parsing, and outliers, with documented data-quality checks at each step.
- Performed **RFM segmentation** and **monthly cohort retention analysis**; found that top X% of customers drive Y% of revenue and identified the repeat-purchase rate (Z%).
- Analyzed delivery delays vs. review scores and showed that late deliveries lower average ratings by X points, with recommendations for logistics improvement.
- Delivered a 3-page interactive Power BI report (Executive Summary, Customer Insights, Operations) with DAX measures for YoY growth, running totals and retention rate.

Sales Performance Analytics Dashboard

Tech Stack: Power BI, SQL, Excel

- Analyzed 100,000+ sales records to uncover revenue trends, regional performance, and top/bottom product categories.
- Built interactive dashboards with KPI cards, profit analysis, and forecasting for executive reporting.
- Automated data refresh using Power Query, cutting manual reporting effort significantly.
- Wrote DAX measures for growth, profit margin and customer retention.

HR Analytics Dashboard

Tech Stack: Power BI, Excel, SQL

- Built dashboards tracking attrition, demographics and workforce trends across departments.
- Identified key attrition drivers (tenure, department, salary band) to support retention planning.
- Designed executive-level reports for workforce planning and talent management.

EDUCATION

B.Tech, Computer Science Engineering *Aug 2024 – Present*
Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV), Bhopal, M.P.

Senior Secondary (Class XII), CBSE *2024*
Central Board of Secondary Education **76%**

Secondary (Class X), CBSE *2022*
Central Board of Secondary Education **81%**

Advanced Diploma in Computer Applications (ADCA) *Feb 2023 – Feb 2024*
STP Computer Education

Diploma in Web Development *Jan 2022 – Jan 2023*
STP Computer Education
